2014 President’s Cup Winner!
Loco Motion and Sara Baldwin
Meet Our New Judges, Judge Applicants, Apprentices and Provisionals

Congratulations to Our Newly Approved Judges!

Veterinary Judges
Valerie Bixler, DVM (R4)
Mike Coker, DVM (R5) (reinstated)

Horsemanship Judges
Sarah Rinne (R6)

Members: Your comments to the Judges Committee on the following applicants, apprentices or provisional judges are welcome.

Provisionals
Veterinary Judges
Natalie Morris, DVM (R5)
Elizabeth Yorke, DVM (R5)

Apprentices
Veterinary Judges
Sharon Dehart, DVM (R4)

Horsemanship Judges
Patti Hicks (R4)
Wayne Tolbert (R5)

Provisionals
Horsemanship Judges
Jill Talbot (R3)

Applicants
Veterinary Judges
Shannon Herrick, DVM (R3)

Veterinary and Horsemanship Judges:
- Has your address or phone number changed? Please notify the NATRC office of any changes. Indicate home and office numbers.
- Apprenticing must be done with an approved judge who has agreed to judge and supervise an apprentice.

Ride Chairs:
- Secure your judges early. You must contact and secure your judges well in advance of your ride date!
- Please contact the National Office for a current Judges List.
- If you have difficulty securing an NATRC judge, please contact the appropriate Judges Committee chair:

Mike Bridges, DVM - Veterinary Judge Co-Chair
H: 704/937-3300
mwbdvm@earthlink.net

Priscilla Lindsey - Horsemanship Judge Co-Chair
H: 785.259.1687
pris.lindsey@gmail.com

Hoof Print is the official publication of the North American Trail Ride Conference (NATRC) and is published quarterly. Each issue contains updated information from NATRC committees and board meetings and informative articles on trail riding and horse care.

NATRC and Hoof Print are devoted to educating and informing the competitive trail rider. Hoof Print in printed form is available by subscription. Please contact the National office for information and rates. Articles may be reprinted from Hoof Print with permission from the editor. The following credit line must be used with each reprint: Reprinted from Hoof Print, official publication of the North American Trail Ride Conference, (issue/year).

Contributions are welcome. However, NATRC and Hoof Print do not necessarily endorse or support the opinions expressed in printed articles or advertisements. The editor reserves the right to edit material as necessary. No letters to the editor will be printed if not signed. For more information contact the editor (information below).

NATRC and the Hoof Print staff are not responsible for errors in spelling of horse and rider names. Artwork and photos used in Hoof Print are copyrighted material and may not be copied or used without express written permission from the publisher.

Editorial policy: The editor invites member comments and suggestions. Opinions expressed herein are those of the author and do not necessarily reflect NATRC opinion. Keep all letters to 250 words or less and include name, mailing address and telephone number. Send letters to:

As a recap from my last message I will reiterate a few things. First is a sincere belief in the smarts and savvy of our members and an educated guess that you folks prefer substance over smoke and mirrors. Secondly is a bullet-pointed highlighting of my thinking from there:

- NATRC is an organized sport.
- Organized sports have standards.
- NATRC is a judged sport.
- Judged sports have standards for consistent judging.
- Our riders deserve to expect a standard of consistent judging.

If you accept that NATRC is an organized sport then you have to accept that like all organized sports we have rules and accepted guidelines, recommendations, and standards to be followed, including for our judging, and that those organizational guidelines and standards should be set by the organization—not by each individual judge or representative. Can you imagine any other equestrian sport where the standards and best practices for judging were left to the imagination of each judge? Whether it’s the show ring, dressage, riding, cutting, jumping, team penning or combined driving the competitor enters the event knowing what is needed in order to place well. There are known expectations. But our NATRC judging often leaves competitors confused about what is good trail equitation or trail skills or whether their horse is even being judged on fitness and soundness. The fact that our sporting event takes place in the woods and on the trail makes it no less of an organized sport.

A good example of inconsistent judging that confuses riders is the judged mount. Science and good horsemanship clearly show that there is less torque on a horse’s back when mounting from terrain (whether natural or from a mounting block) than when mounting from the flat. Yet sometimes our riders are asked specifically to mount from the flat. Why? We all know that it is necessary for most of us to be able to mount our horse from any situation, but if we are truly interested only in seeing good control and a quiet mount, why put the horse’s back at risk? Let’s do right by our riders and horses and not ask for mounts from the flat.

Another example of inconsistency becomes glaringly obvious when most judges watch for safety and maintaining of control at all times, and then others ask the riders to drop their reins and cartier or perform some maneuver without rein control. It is satisfying and fun to know you and your horse are able to communicate so well with just leg aids, and I practice this myself at home in the confines of a ring. However it presents a conflicting and inconsistent picture for our sport to promote safety while some of our judges ask for no hands riding. This was brought home to me by a newish rider trying to learn “the NATRC way” and ride as safely and properly as she could. She didn’t consider it safe to just drop the reins, but didn’t want to lose points. What, she asked, was the right thing for her to do? Did NATRC, she asked, consider it ok for the judging to be that inconsistent? Let’s do right by our riders and consistently put safety first and not contradict each other.

Multiple riders have come forward clearly agitated, upset, and sometimes angry at the inconsistent judging of rider position on the uphill. Good position should be easily identifiable from judge to judge, and we should not expect our riders to learn a new or differing set of skills for every judge they encounter. That is disrespectful of the folks who spend their money with us. There is plenty of good information on proper uphill position. Several articles can be found at Judges’ Resources. Let’s do right by our riders and get on the same page for the correct uphill position.

When presenting horses at vet check some riders are finding the same ambiguous standards as for uphill position. They don’t know which is correct. We have judges telling them to stay on the inside of the circle when circling the horse in hand; we have judges telling them they must stay on the outside of the circle; and we have judges who judge the effort for safety and success, and don’t declare one side of the horse preferable over the other, as long as the effort works. Recently a rider came to me in tears because she was told the opposite thing by two judges at two rides in a row. Let’s do right by our riders and judge the effort for safety and success.

Establishing better consistency within our judging is not about control. It is about professionalism and respect for the organization and its members. Organizational requirements, recommendations, and standards are set by NATRC and should be followed by its representatives (in this case our judges). Oversight of those requirements is the responsibility of the organization, but our members can help by holding all of its representatives to the guidelines set by NATRC. There is no reason our judges cannot operate in a consistent and professional manner while also being the unique individuals they are. In fact, this consistent professionalism will promote a more relaxed and stress free environment for our riders. Uncertainty creates anxiety, and our riders have chosen to spend their hard earned money with us and we owe them the most inviting environment possible.

NATRC has smart and savvy members who deserve consistent judging. While we all share the responsibility of maintaining consistency, clarity, and authenticity it is the organization that has the responsibility of first establishing reasonable guidelines and standards and providing any and all necessary support to ensure the success of our judges. Our judges then have the responsibility of adhering to those guidelines. When you combine those two things, you have the basis for a solid foundation of quality and professionalism within our organized sport. Our riders, both new and old, deserve no less.

Many happy trails and much success to all of you. Thank you!

Sincerely and respectfully,

Kim A. Cowart

North American Trail Ride Conference Mission Statement

The North American Trail Ride Conference (NATRC) promotes horsemanship and horse care as they apply to the sport of distance riding by offering a variety of challenging and educational experiences designed to strengthen horse and rider partnerships.

Code of Ethics

We, the NATRC National Board of Directors, Executive Director, judges, committee members, and employees are ambassadors of our sport whether at an organized event or informal gathering. There is an implied code of ethics to adhere to. This code of ethics dictates that we behave professionally, courteously and responsibly. This includes:

- Representing the sport in a professional manner
- Being respectful when giving an opinion
- Substantiating information before giving an opinion
- Being kind and courteous to others
Spring Fever

Spring Fever, a 13.1 hand mule and winner of the 1991 President’s Cup, passed away on December 30, 2014 at the age of 31 ½. Spring Fever and Pat Seymour also won the Jim Mene­fee Memorial (combined horse/horsemanship) in 1991. Spring Fever had an impressive career with 3,560 miles in competition.

Student Scholarships Awarded

The NBOD recently approved two Bev Tibbits Memorial Scholarship applications. One is for Taylor McNeel, Region 4. Taylor is studying Agricultural Business at Southern Arkansas University and hopes to become an agriculture policy advocate. The second is for Jason E. Klamm, Region 6. He is a high school senior and is interested in studying Animal Science and Nutrition at Kansas State University in the fall.

Congratulations Taylor and Jason!

“Do the best you can until you know better. Then, when you know better, do better.”

—Maya Angelou

Enhanced Member Services

This program is an annually renewable program in which participating businesses or organizations provide discounts to NATRC members and friends who contact those businesses or organizations through NATRC’s website Member Services page.

Learn more at Member Services.
Student loans are available up to $5,000 per person/year, at the discretion of the NATRC National Board of Directors, after proper application has been submitted.

Preference will be given to a full-time student who has been a member of NATRC or whose family has been an active member for at least three years. Consideration will also be given to a student or a student’s family who has been an active member of NATRC for less than three years but more than six months.

A loan will be made based upon financial need, scholastic achievement, and character of the applicant as determined by the Student Loan/Scholarship Committee.

A loan is to be repaid in monthly installments with an annual interest rate of 3% charged on that loan, beginning not later than six months following graduation or when the recipient ceases to be a full-time student.

For an application, contact the NATRC Executive Administrator at natrc@natrc.org, or download NATRC Student Loan Application.

Please complete the form in Word or as an interactive PDF and submit via email to the NATRC Executive Administrator at natrc@natrc.org.
It is amazing how much one person can influence both new and existing members, adding a personal touch and going the extra mile to make a difference in our experience. After 32 years of involvement in NATRC, Priscilla Lindsey continues to give back to our organization in major ways while setting a fine example of good horsemanship and understanding the foundation of our sport.

As a Horsemanship Judge since 1997, Priscilla has a keen eye, giving valuable feedback on our scorecards and excellent explanations during ride briefings of how we can improve our efficiency and form. Many light bulbs go off as she illustrates how to properly ride a downhill or execute a smoother side pass. She not only tells us how to achieve these improvements but explains why it will help our horses! Her background in Centered Riding has given her the training to recognize good equitation as well as the imagery she shares to allow our bodies to cue properly. Priscilla always has a smile and encouraging attitude, putting us at ease during obstacles and remaining approachable to discuss ways to improve. She is an example to all of us on how to interact with our newer riders.

As a mentor, Priscilla gives countless hours and will drive hundreds of miles to assist in the success of a ride, helping to manage, check trails, lend a hand with P&R’s, assist her husband in preparing ride meals, or aid in secretary work. Often she will help a first-time ride be successful by donating her judging fees. Priscilla is a valuable asset when hosting clinics as she is motivational while sharing her thorough knowledge of our sport, helping all classes of riders improve their scores. It is a common sight at events to see her assisting with saddle fit. Her articles in Hoof Print are another excellent example of helping us become better competitors and horsemen in general. Mentoring Apprentice Horsemanship Judges helps a new generation maintain the same consistency in scoring and comments.

As a leader in our organization, Priscilla has served as Chair of the National Judges Committee for Horsemanship, was a National Board of Directors Alternate in 2010-2011 and continues to serve as a Member through 2014. She is currently Co-Chair of the Breed Organization Liaison. She has been even more involved on a Regional basis, serving as a Board Member in Region 6 as well as Vice President and President.

Thank you, Priscilla, for your years of dedication and giving us the knowledge to become better partners for our horses on the NATRC trail.
First let me say a really big “thank you.” I do appreciate this honor for what has basically been my life’s work—at least for the second half of my life. I had another life before NATRC—and yes, I call it Neigh-track rather than N-A-T-R-C. A 33-year habit is hard to break. But what better name to call us than to think of hearing your horse *neigh* as you travel a *track*—through the woods, over the prairie or up a mountain.

I like to think of life as a journey, and I believe in having goals in your life—and those goals should include living young, having fun, and arriving at your destination (preferably as late as possible) with a smile on your face because you’ve enjoyed the ride. I’ve certainly been enjoying mine!

In 1981, my life changed dramatically when I quit a professional job, married Steve, and rode my first NATRC ride. I’m not going to bore you with tales of the scores and scores of rides I’ve ridden, managed or worked through the years, as much as I would like to. Let me just say I had no idea how my life would change when I ventured off to that first ride—all by myself, with my little 2-horse trailer and pup-tent. Let me just say a little about that first ride. There was no welcoming committee or assigned mentor, and hardly anyone spoke to me. I figured out what to do by watching the other people in camp. I had my first experience of suddenly having a different horse than what I had when I left home—my mellow little mare was suddenly a fire-breathing war horse! It rained all day the first day of the ride, and I was cold and miserable. But.... the second day was sunny, warm and beautiful, I had an incredible ride, and I was hooked!

From that weekend on, my life took a new path. NATRC became a major focus of my life. Not just the riding, but managing rides, volunteering for every job and eventually becoming a judge. But that wasn’t all. I already enjoyed breeding horses as a hobby, but then Steve and I decided to make a business of breeding and training horses suited specifically for the sport of competitive trail riding. Starting with my two Arab mares, we developed a breeding program that we still continue today. We’ve bred, raised and trained horses to top national wins—twice missing the President’s Cup by just a few points. I think I have ridden at least 16 different horses in NATRC competitions! And, I’ve helped many other people get started in the sport.

My horses and I have enjoyed many, many wonderful places—some places that we will never see again. I have ridden over the Continental Divide, above the clouds, and watched lightning strikes hit the ground in the valley below me. I’ve enjoyed fantastic views from Pigeon Mountain in Georgia. I’ve galloped the trails of the LBJ Grasslands. I’ve ridden along beautiful Brushy Creek in Iowa before it was covered up by a new lake. We still ride the Kansas hills where I began and will continue to do so as much as possible.

Through the years I also studied equitation as it related to distance riding, including taking the instructor’s course for Centered Riding. I’ve studied with such wonderful instructors as Linda Tellington-Jones, Donna Snyder-Smith, Wendy Murdock, Susan Harris, Sally Haney and Judith Cross-Strelke. I enjoy teaching riding as much as riding itself, and hope I can continue to do it for many years to come.

Thank you again for this honor! See you on the trail!
When you're off trail course,  
On a mixed up horse,  
Who ya gonna call?  
Brenda Simpson!

Brenda Simpson - Region 4

When you're off trail course,  
On a mixed up horse,  
Who ya gonna call?  
Brenda Simpson!

In NATRC, you always want Brenda Simpson on your team; she is the calm in the midst of turmoil and can quiet a dramatic storm. Since 1984, Brenda has been a natural compass, excellent navigator and trail marker, as she is not afraid of hard work, and she is very giving to our sport. Brenda managed Robbers Route/Arrowhead CTR's for many years, making the rides fun with dinner and a dance. Brenda saved the life of a horse that was in distress in the water. She shushed the hysterical crowd, and after much work, helped the horse swim free. Just as super hero The Lone Ranger, Brenda is a NATRC CTR phenomenon!

Brenda’s sense of humor, and amazing story teller talents make her a favorite at every ride. She brings high energy to the ride and can spin the best of yarns around a campfire. Her cheerful smile can lift up the lowest of spirits and calm the dragon in many.

When you need a friend,  
To the very end,  
Who ya gonna call?  
Brenda Simpson!

Tanya Kingsley - Region 5

I have known Tanya since I became involved with NATRC over 20 years ago. The first time we met was at the last Nash 90 held in Georgia. Lynn Lathrop and I were new, doing P&Rs, when an Open rider said ‘I want Tanya’ and Tanya came up to do the P&R. Afterwards she told us not to worry about it – so typically Tanya. She has worn many hats in Region 5 – competitor, board member, highly sought after judges’ secretary, P&R Coordinator/worker, convention Hospitality Suite co-chair nationally and regionally – but perhaps her most demanding and time-consuming hat is the Points and Awards chair for Region 5. And she has worn that hat more than 23+ years now. She tirelessly and graciously works to obtain beautiful and fitting awards for our Region 5 competitors. At this writing, she is once again serving as regional board alternate while keeping up with points and gathering the regional awards.

There is no one I can think of more deserving of this appreciation award than my very dear friend, Tanya Kingsley, one of the best things ever to happen to Region 5 and NATRC.

Erin Glassman - Region 6

Erin Glassman does not hesitate to jump in where needed, lending her experience and enthusiasm to make rides successful and grow our sport. Even with a full plate of young children at home, a demanding job, building a new house, and competing on her horse, she volunteers in many important capacities including as our National Trail Advocacy Chair, National Board of Directors Alternate, Co-Chair of the 2015 National Convention, Region 6 President, Ride Manager, Trail Master and so much more.

It was not surprising to see Erin at one recent ride explain the trails at the ride briefings, help out as Vet Judge Secretary, assist timing in riders, announce awards, and pop up wherever she was needed throughout the weekend. A few years ago, she managed a ride while nine months pregnant and later continued to volunteer as much as she could even with a broken back.

There is no stopping Erin’s dedication! Her energy and constant can-do attitude are contagious and we appreciate all that she does for NATRC.
Contributions to our sport can be measured in many ways, from volunteering in every possible NATRC role, to providing regional and national leadership and management experience, to mentoring and tirelessly helping fellow competitors at rides year after year after year. By these measures and more, Larry and Barbara Gould represent the very best in giving back to NATRC.

Unknown to most, Barbara began competing before Larry nearly 30 years ago. Soon the entire Gould family, including numerous foster children, became fixtures in Region 4. From the beginning, Larry and Barbara could be counted on to provide food, replace or repair broken tack, nail on a shoe and pull out others’ rigs in the worst weather conditions. Larry and Barbara have raised not only their own children in NATRC, they have provided guidance, advice and love to new and old competitors alike. “Get Larry. He can fix it/do it/tell us,” is a common statement in Region 4.

When Barbara decided to stop competing more than a decade ago, she dedicated herself to volunteering, earning regional recognition for the most volunteer hours in Safety countless times, coordinating the Safety teams at nearly every ride. Ride managers know that when Barbara is in charge, the Safety riders will be prepared and the competitors will be well cared for, no matter what should happen on the trail.

Larry has served on the National Board of Directors multiple terms, lending his years of experience as a competitor and skilled horseman to discussions. He provides fellow Board members with common sense approaches to the fundamental issues plaguing the sport.

In recent years, Larry and Barbara have co-managed Horsemasters, one of the region’s most popular rides. Because NATRC is the only equine organization allowed on the property once each year, it takes hours of Barbara and Larry’s time to clear and mark trail for weeks at a time, done in addition to the regular time-consuming management duties. As a team, they do whatever it takes to insure everyone has a good experience, from hunting loose horses into the wee hours, to checking on the safety of the horses in camp during tornado warnings when everyone else is hunkered down in the storm shelter.

Yes, contributions can be measured in many ways. Larry and Barbara Gould provide the standard for the rest of us.
NATRC recognizes exceptional horses that have consistently placed at the highest levels of competition over many years and many miles of competition. In 1986, NATRC inducted its first Horse, Elmer's Bandit, into the Horse Hall of Fame. Since then, there have been 8 other horses honored.

This year, we recognize the 10th, Swiss Mocha (aka Coco), owned by Paula Riley. At the time of her application, Coco had completed 170 NATRC competitions over 14 years. She won sweepstakes at 20 of these competitions and traveled 9500 competition miles. She won 11 National Championships, was regional (in Regions 4 and 5) High Point Open Lightweight Horse three times, and was National High Point Open Lightweight Horse twice. In 2004 Coco won the President’s Cup, presented to the national Overall High Point Open Horse.

At 20 years old, Coco continues to compete at the highest levels of Open competition. In 2014, she completed an additional 12 rides, with three more sweepstakes wins, and now has over 10,250 miles in competition. She won her 12th National Championship and in overall Open competition, she was third in the nation. Let's give a big hand for this wonderful horse!

Swiss Mocha’s Acceptance Speech

Hi, my name is Swiss Mocha, but my mom calls me Coco. I was a strange baby because my sire was a foundation Missouri Fox Trotter and my dam was a foundation QH. When I was little, I didn’t have a clue about what to do with my feet! However, my mom says I got the best of both breeds. From my sire, I got the 4-beat gaits, head bob, and floppy ears. From my dam, I got a BIG engine and a sensible brain. And the best thing was that all the various parts of me were put together very well, making me strong and surefooted. When I was 4 months old, my mom taught me to lead, tie, and trailer – in just one weekend. When I was 6 months old, my mom took me to Texas to stay with her.

She spent the next four years teaching me everything I needed to know to be an NATRC competitive trail horse. I studied hard and was a quick learner – and I like to compete! We started in the Novice Division and stayed there for two years before moving on to Open competition. I like Open competition because it is FAST, but it can be hard, too. But the harder it is, the better I like it! Sometimes I thought my mom was trying to tire me out, but I fooled her – I always had a reserve of energy!

Once upon a time, my mom gave me a personality test. I wanted to be a Rock Star or a Prima Donna but it turns out that I am a Butler! I’m always asking ‘What can I do for you?’ and in anticipating what comes next. While I listen to Mom a lot, I’ve taught her to listen to me, too. She encourages me to make some decisions for myself. This was important the day I slipped on a rock and found us falling into a ravine. I looked down and found a spot to land on my feet and suffered only minor scrapes. I was scared at the bottom of the ravine and wanted to climb out. But Mom was laying in my only path out and said ‘No’.

Photo by Barbara Gould / Used with permission

We have a lot of trust in one another.

Mom tries to make the competitions interesting and fun. And doesn’t get overly agitated when I don’t do everything right, which makes it all ok. I pay close attention to the footing in the trail. When I see rocks, I know to slow down and we always walk going up or down hills. When I see a bunch of strange people in the trail, I pay close attention to the horses in front of me. I know that I’m going to be asked to do what they do. And I become confused if Mom asks me to do something different from them!

I love it when we come to a rest stop because I get to take a nap. Mom pours water on me, checks my feet, scratches my head, and takes a nap with me. When the fellow comes up and says ‘start’, she takes a deep breath and lets it out very slowly. I do too.

We have competed in NATRC for 14 years now and have over 10,000 miles in competitions. I didn’t always win, but it was fun when I did. I have a whole wall in Mom’s house dedicated to various ribbons, plaques, awards, and medals. Mom says I’m like the Energizer bunny; I just keep going and going. I think of myself more like the Engine that Could. I think I can, I
think I can, I know I can!!! Best of all, underneath my pretty white coat is the heart of a race horse – I LOVE to run!

We’ve become old ladies now and are slowing down a bit. Mom has arthritis and sometimes I have to be very careful with her. I’m starting to feel some aches and pains too. She takes good care of my health and is very protective of my legs. In addition, I get to go to a chiropractor and massage therapist (yumm) regularly.

Thank you all for recognizing the accomplishments of this Engine that Could. When I see you on the trail, consider my flopping ears a ‘wave’.

Happy Trails,

Coco

Coco is a bit stuck on herself, so I’d like to say a few words for those of you who might aspire to stand where I am right now. I want you to know that there is NO perfect horse.

First and foremost, this horse is a HUGE ‘panic-aholic’. She spook at her shadow and then spook again because it moved. If startled while tied to the trailer, she WILL break something and leave for parts unknown. Thanks to all of you who have helped me hunt for my horse, in all hours of the day and night. I thank NATRC from the bottom of my heart for approving portable panels. Coco LOVES her pen because it keeps her safe.

Second, because of her mixed heritage, Coco moves ‘funny’, which can be of concern to a Vet judge. To help with this, I take it upon myself to ensure that the judge sees the same ‘funny’, short-strided in the rear, thing all the time. At my age, trotting with my horse in large circles is an effort, but that’s what it takes to get a consistent gait throughout the presentation.

In addition, Coco is a headstrong mare. Her determination, drive, and want to ‘go’, often gets in the way of a smooth performance. I work hard at keeping her calm, quiet, and controlled (but don’t always succeed).

Another caution: Coco has good feet. My good friend, Larry Gould, took care of her feet for the majority of her career in NATRC. And then I moved to Georgia. I’m on my 13th farrier at this point. Poor hoof care has caused her to carry excess fill, stress her suspensories, and even go lame. The moral here is don’t let someone else mess up your horse.

As I said above, the moral here is that there is no perfect horse. Find a horse, with good basic confirmation, that you love to ride -- and work with, around, and through the problems. Sometimes the light at the end of the tunnel is a rainbow.

Thank you for this rainbow.

Paula Riley

Beni DeMattei

Beni joined NATRC in 2000, the same year as her first ride, Boulevard Boulder Bash riding Spyder Man. From that point forward, Beni was hooked on distance riding and NATRC.

Beni was elected Region 2 president in 2006, a position she still holds. Beni was elected to the NBOD in 2009, also a position she still holds. Beni has also become the region’s resident Rules Interpreter whenever needed, a job that is often hard to fill in our small region.

She volunteers whenever there is a need, for example, she is the secretary for all three of the Arizona Triple Crown rides in the region. Oh, by the way she is our webmaster, RMS person, responsible for points/awards and has now agreed to take on part of the points and awards for National.

Thank you Beni, without you, we in Region 2 would be in big trouble.

**Chuck Smith & John Volkerding**

By Sharon Roper-Dashner

I have known Chuck Smith for many, many years - since he accompanied his parents on NATRC competitive rides when he was a young boy. From that time forward, I have had the privilege to work with Chuck in many different capacities. Always, the main thing to stand out is his pleasant and eager approach to helping in any way he can. Chuck treats everyone with respect and goes out of his way to make our region and our rides a great experience for all who are participating. It is with pleasure that I personally appreciate Chuck and all he does for Region 3.

John Volkerding is a treasure. John has tirelessly taken on the task of being our Stirrup Editor and getting our newsletters out to the membership for many years now. He never complains and is always creative about each edition he puts together. As far as I know, John is not particularly a horse person, but he supports this region with an energy and capacity that few others would attempt.

Both Chuck and John together are very deserving of receiving the National Regional Appreciation Award for 2014.

Barbara Rubley

Barbara Rubley was raised in and around NATRC competitions by her parents Sharon and Don Rubley. She grew up around horses and NATRC, learning the principles of horsemanship and safety. These principles have been carried on by Barbara, as she is an excellent competitor and volunteer.

Many a horsemanship and vet judge in Region 4 have benefited from the professionalism of Barbara as their secretary. She is precise, hard-working and conscientious in her endeavors as a volunteer. As helpful as she is cheerful, Barbara is an asset to the judges, making sure the score cards are correct.

Barbara is invaluable as the very important job of Rules Interpreter. She is knowledgeable of the rules of NATRC, which is so helpful to ride managers when needed. Recently, when she was called upon for a ruling, Barbara knew the protocol needed immediately, and followed through to the very end with the Ride Manager. She also filled out a very conclusive RI report, explaining the situation in detail.

From Chapter one, as a Junior rider to now, Barbara Rubley has been a dedicated advocate and continues to add chapters in her NATRC book of life.

Patti Hicks

In June of 2003, an East Texas barrel racer decided to try a CTR, and entered Robber’s Route in September. In October she posted, “I am thoroughly hooked and enjoying this sport. I do believe it is addictive.”

Patti Hicks and Monday moved to the Open Division in December of 2004. She went on to place well in Region 4 in 2005. In 2007, she rode her horse Domino to a National Championship. She went on to win National Championships on Star in 2010, Queso in 2011 and again on Star in 2012.

Patti started giving back to Region 4 early in her CTR career. She was Trailmaster, then Volunteer at Cass County Trails CTR 2007 and 2008. She served on the R4 Board of Directors from 2007 through the present. She has served on various committees including Nomination Chair, Rider Owned Number Coordinator, and New Member Chair.

As Vice President in 2013, she stepped up and took over the reins when the President resigned, making sure that Region 4 held together.

Patti has started her journey to becoming a NATRC Horsemanship Judge, serving NATRC in yet another way, thank you Patti Hicks!

Teresa Galliher

Tremendous, Encourager, Mentor, Family Oriented, and Excellent Horse Person are words describing Teresa Galliher. Region 4 is so lucky and blessed to have such a dedicated and wonderful person participating in our sport. We applaud Teresa for her hard work and dedication!

Teresa has managed the Sawdust CTR and the Tarrant Ranch CTR for years. She has also taken responsibility and followed through with countless volunteer positions, performing each job efficiently and professionally. While balancing volunteering and competing, Teresa manages to finish the season with plenty of awards too.

Mentoring is Teresa’s strong suite; she has brought many new competitors to NATRC. She gives the riders the gift of confidence and riding skills that will last them a lifetime. Teresa is kind, welcoming and fun to be around.

One year a Junior Rider’s horse was unable to compete; not only did Teresa loan her a wonderful Mustang for the ride year, but also took her to plenty of rides, when her parents couldn’t attend. The Junior Rider won her National Championship and was the number one Junior Rider in the Nation, thanks to the kindness of Teresa!

Thank you Teresa for your love and dedication to NATRC Region 4!

Ginny Tolbert

Ginny Tolbert’s association with NATRC began in 1996 when she and her husband Wayne brought their daughter, Rebecca, to a CTR in Tennessee. Ginny didn’t know much about trail riding, and almost nothing about NATRC, but she recognized that a love of horses, disciplined riding, and the camaraderie of our group was good for her family.

Riding J.J.’s Grand Finale, Ginny earned over 1000 miles. During those miles she discovered pleasure came during fellowship with Region 5. Riding, she learned, was a distraction from her favorite part of the weekend. Meeting and greeting new riders and volunteering were her true calling.

Creations from her pottery studio at High Meadows Farm became coveted awards. As ride timer Ginny puts the beginning moments and final finish line into perspective with confidence, organization, and a sincere, “Have a good ride!” Her name and her reputation as a priceless volunteer in Region 5 were recently pointed out when Wayne introduced himself to new riders and they replied, “Oh, you’re Ginny’s husband!”

Ginny has volunteered at almost every Region 5 ride; has managed and/or been the ride secretary and timer for over 75 rides. She reflects the most valued characteristics of the NATRC spirit.

Michelle Goza

Michelle Goza started in NATRC in 1985 as a 24-year-old. She epitomizes the NATRC spirit—riding, managing the Faye Whittemore ride in Jasper, Alabama, and rescuing starved and abused horses.

Michelle has won a national championship, placed nationally, and won several regional awards. She has involved both of her sons in the sport. William got his 1000 miles when he was 13. Her younger son, Clint, has ridden one ride. Of her horses or mules, Andy was her favorite. Michelle bred him, raised him, and rode him for a few thousand miles. William got his 1000 miles on him and Clint rode him, but was not able to complete on him due Andy’s pasture injury. The old fellow at 28 is still around.

More recently, Michelle has been involved in horse rescue organizations. She’s helped with, Helping Horses Alabama, Dusty Trails, Arabian Horse Rescue, and she is now starting AERS and saving horses throughout Alabama. She has personally saved or helped somewhere around 200 horses.

Other facts Region 5 riders want to know about Michelle are: Yes, she wears a sports bra. Her husband does exist. And, she hopes to do some rides next year with Clint.

---

4-H Junior Rider Year End High Point Award

To encourage participation by 4-H members, NATRC offers a 4-H Junior Rider Year End High Point Award.

- The award goes to the high point rider and high point horse regardless of the rider’s division.
- The award is a self-nominating award. The nomination must occur before the end of the ride year, which is the second Sunday in November. This year, it will be November 8, 2015.
- The rider must (1) be a member of NATRC (2) send Laurie DiNatale an email (natrc@natrc.org) stating that they are a 4-H member and (3) have their 4-H leader verify that they are a member with an email to Laurie DiNatale (natrc@natrc.org).

Fred Altwegg

Despite being a very capable rider, Fred Altwegg prefers to volunteer at NATRC rides, much to our appreciation! While supporting his wife Noreen as she competes, he faithfully works at every ride in our Region year after year, as much as harvest allows!

Fred is a constant on our Pulse & Respiration team, often serving as Chair. He does an excellent job training new volunteers and keeping things running smoothly and consistently. Fred always has a smile on his face, a friendly bearing and a story if you have time. He brings a mounting block along for those who need a boost, and has an encouraging word and laid back demeanor to help put riders and volunteers at ease. We are always relieved to see Fred at a ride, knowing we will have an efficient P&R team with his dedicated help. We certainly appreciate seeing him at a great deal of our rides!

Trish Cleveland

Always a fierce competitor who has done all her homework, Trish Cleveland sets a high bar for the rest to strive toward. After beginning this sport in 1991 with a sweet Quarter Horse mare, Deacons Dolly, and earning four National Championships between 1999 and 2004, she showed us what can be done with proper conditioning and management. Starting over again with Cito Mocha Raton, quite the spitfire compared to Dolly, Trish taught us about perseverance and dedication, earning Mocha’s sixth National Championship this year. Attending 100% of our Region’s rides, new and old, is appreciated but not as much as her thoughtful, handwritten thank you notes sent to ride management after each ride!

While it is hard to volunteer as much as she would like with home commitments, Trish still manages to do vital jobs within our Region. She handles our Rider Vest program, allowing us to purchase a number each year, keeping track of the extra set of vests and informing ride secretaries of assigned numbers. She also records all our Worker points and awards our valuable volunteers at year-end as milestones are reached. The extra recognition she gives to Trail Masters or Ride Managers or Ride Secretaries at convention time is greatly appreciated.

Marilyn Marston & Marla Stucky

It’s hard to imagine Region 6 without Marilyn Marston and Marla Stucky! Their friendly attitudes and contagious fun in camp and along the trail always brighten every ride. Since the days of “Frick” and “Frack”, these two sisters have added a lot to our events. Not only do they often attend every ride in the region, but they also manage the 100% Club for the rest of us to set the same goal.

Ever striving to better their own horsemanship and scores, they still take the time to mentor new competitors, especially Marla while riding Competitive Pleasure as she started a new horse. They further reach out to spread the NATRC word by chairing our booth at the Kansas Equifest. We appreciate their welcoming and light-hearted attitudes and are grateful to have them be such excellent advocates of our sport.

Sara Baldwin and NATRC President Kim Cowart
Acceptance Speech by Sara Baldwin

I didn’t get to this special point in time in a single season or a single year. So it feels like I have a lot to say wound up inside me and I can’t wait to get started.

I must begin by thanking the world’s greatest horse enabler who is with me tonight. Doug has been so supportive. He even let me steal his horse. He and I are in business together, which means that this past year, he actually did a lot of my work while I went traveling off with my horse and dog. Like any good horse husband, he helps with the lifting and loading. But this past year, I can recall two instances where he kept me from quitting. So thanks for the pushing as well as for pulling more than your weight.

I also want to thank the ride managers, volunteers, and judges. While I think it would be wonderful to name names, after 85 rides and ten years, we would be here all night. You were willing to step up and say, “I can, I will.” You were willing to take the time, do the work, and even risk the money. Without you this sport would simply die.

I also need to thank Jameson Moulis for riding Motion at Christmas in the Pines. She did a beautiful job. She inspired me to improve so that I could succeed in this quest.

Winning the President’s Cup took me a long time. I think it stretches as far back as October 2005, when I first saw Motion and said “Open Champion.” It has been a wild ride on a difficult and wonderful horse. I’m sure that many of you who have seen us over the years are really wondering, “How did those two ever get that far?”

Please know that versions of this speech have been drifting through my head for years rather than just the last few months. But my thinking about what to say changed earlier this year, thanks to Facebook.

A thread started on NATRC’s page about riding after illness, injury, and with chronic conditions. There were so many comments that my computer locked up.

Somehow riding heals us and makes us stronger. I am proud to be one of you. You are my people, my tribe.

This is not an easy sport. The Facebook incident had me asking, “Why are all these older, ill, and infirm people out there trying so hard, setting goals and working year after year? For me, the answer is there every time I go to the barn and see the brightest eye, every time I look across the pasture and see the most graceful, fluid movement. It’s there every time I settle in the saddle and feel the spark of energy that is Motion. He makes me want to be a better person. And that is love.

We all have horses we love. If there is any one thing I have learned on my wild ride, it is that the love of the horse is the heart and soul of horsemanship. It is the reason for the journey.

I should have been up here telling you why my horse is special rather than presuming to give a speech about horsemanship. But, in the spirit of NATRC, it is horsemanship that leads us to choose these horses, that helps us train them, and makes us care for them so well. And it is horsemanship that brings us together in this sport and together this night. I’ll be ever grateful to Motion for giving me this opportunity to speak to you.
Motion’s road to the President’s Cup probably began in October 2005 when I first saw him and said, “Now there’s an Open Champion.” I was shopping for an extra horse, a husband horse, one to use on trail work and day rides so that my NATRC horse, Image, could focus on moving up in competition. I’ve been telling awful Motion stories for years. I don’t know that I’ve ever tried to explain why I stuck with him, why I kept trying, or why I’ve believed firmly for years that he could win the President’s Cup.

Riding Motion is like a drug. He loves to go down the trail and his energy passes to me. His step is light and springy. His pace is balanced and sure footed. He will pace, gait and trot, gallop and lope. And considering that he can spin, flip, and levitate, Motion is a superior athlete. He will pace, gait and lope, gallop and lope. And considering that he can spin, he is extremely smart and sensitive horse. I am 100 percent responsible for his actions. He is not easy. He requires intense focus, calm, softness, and discipline. Meeting the emotional and physical demands of riding him has taught me about managing myself as well. So training me has been a part of training him.

I am also 100 percent responsible for his care. It has taken years to work out the right feeding program, the right shoeing, the right bridle, saddle and pads. I have also learned to recognize when he needs rest and chiropractic care. Sixteen rides in one year is a lot of miles! He is a great traveler, but I had to learn to take it easy and take better care of him on the thousands of trailer miles too.

Horsemanship is a journey; this one has been long and winding. It has been a NATRC journey of the selection, training, and care of a special horse. I don’t exactly remember when the President’s Cup became the goal for Motion, but it has been out there a long time. All of my fellow competitors and Region 5 family deserve thanks for helping me mark such a milestone in my life.
Communicating Expectations

By Kimberly Winterrowd, Management Committee Chair

How many times have you volunteered to fill a valuable role for a ride, such as the timer, ride secretary, safety chair etc.? Have you volunteered in the same role many times and at various rides over the years? How well do you know all of the duties of that position? Have you ever seen them listed out for you? As a Ride Chair do you make certain each member of your team has a listing of their assigned tasks? How about a little quiz: (Answers at article end.)

1. Whose duties are these?
   - Carry First Aid material in your vehicle.
   - Verify all vehicles have valid insurance and all drivers have valid drivers’ licenses.

2. Whose duties are these?
   - At lunch stop, call each rider’s number loud and clear 5 minutes before rider’s departure time.
   - Know the precise minimum and maximum total elapsed times for each division per the time and distance schedule for each day’s ride.
   - Know the driving times to each P&R stop and synchronize arrival and departure of all vehicles.

3. Whose duties are these?
   - Pre-assign an assistant who will give completed cards in numerical order to vet secretary and assist in recording on scorecards if needed.
   - Two Superior Stallions at Stud
   - Sales-Breeding-Clinics
   - Ask about discounts on our sale horses!

Reminder from the Points & Data Committee
Cheri Jeffcoat

1. To be eligible for year-end awards, membership dues must be paid by the second Sunday in November, the end of the Ride Year.
2. It is the responsibility of the owner of the horse to accurately report/verify the horse’s breed to NATRC.
3. Year-end breed awards. Many breed organizations sponsor year-end high point breed awards. Memberships in NATRC and the breed association are required.
4. Questions about the horse and/or rider records should be directed to NATRC.

Answer to quiz 1. Trailmaster; 2. Ride Timer; 3. P&R Chair

Ask about discounts on our sale horses!

psarabians.com Facebook/PrairieSylvania Arabians
Jennifer Kutch messaged me through Facebook to tell me that reading my book helped her solve many problems with her horse, Mack. But she still struggled with a bolting issue and wanted to know if she could call and discuss it with me. “Absolutely,” I replied! (I’m thrilled when readers contact me!)

When we talked on the phone later on, I learned that Jennifer would have four or five good rides in a row, and then suddenly Mack would spook at something (anything, nothing) and go bolting off. She wanted to solve the issue for once and for all. I don’t blame her.

During the course of our conversation, I asked Jennifer lots of questions. One of them happened to be, “Do you feel comfortable disciplining your horse when you’re in the saddle?” Her answer revealed an important clue.

“No, I really don’t,” she said. “When I first bought Mack, his previous owner told me that she found she could only push him so far without upsetting him. That thought has been stuck in my mind since day one, so I’ve always gone a little bit easy on him.”

All horses get upset when we start pushing them outside their comfort zones. They throw fits. They have a right to. They are prey animals. Comfort zones to them are literally a matter of life and death. But it is only by calmly, steadily, fairly pushing horses beyond their comfort zones that we actually become their comfort zones.

Horses’ fits can be intimidating, but to become good leaders we have to learn how to deal with them calmly. Horses can’t help the fact that they are a lot bigger than us and can easily hurt us. We just have to be aware of that and be smart about a) pushing our horses past throwing fits about stuff while we are standing on the ground; b) keeping their bodies away from ours so they can’t possibly hurt us; and c) trying our best not to push horses so far that they panic and hurt themselves.

Here’s an example: Suppose I try to lunge a horse over a little jump but the horse stops right in front of it, turns to me and rears up instead. I’ve clearly pushed the horse far enough to upset him. That’s okay. What’s not okay is for me allow his rearing to scare me. Even if it does, I’m going to pretend like it doesn’t for the horse’s sake. (Horses can’t stand it when their behavior freaks)

(Continued on page 36)
(Continued from page 35)

us out.) Once the horse settled down, I would resume lunging and pretty quickly try to send him over the jump again. He’ll be much more likely to jump it this time (here’s the important part) because I didn’t allow his fit to intimidate me.

Now if the horse happens to rear a second time, I would help him out by breaking the exercise down into smaller pieces.

I would walk with him over the jump a few times, and then send him out on the lunge to walk over it alone before bringing him back up to a trot. I wouldn’t let the fact that he threw a fit about it at first prevent me from pushing the horse outside his comfort zone… but nor would I hesitate to make it easy for him to go there without throwing a fit.

Jennifer is on her way to becoming a great leader, but Mack knows she is still a bit intimidated by him. After dealing with enough of his challenges, the time has come for Jennifer to get confident challenging Mack without fear of upsetting him. I suggested she start by asking a friend to help her create bomb-proofing sessions that push Mack outside his comfort zone. By working with her horse amidst all kinds of distractions that might upset him, she will give herself ample opportunity to become the calm, stabilizing factor that can prevent him from bolting anytime, anywhere.

With a passion for horse and rider safety, bomb-proofing expert Nelly Cooper founded ALPHA Equestrian to promote leadership education in the riding lesson industry. Her book, The ALPHA Equestrian Challenge, complements riding instruction by helping riders gain a clear understanding of horse behavior, good leadership skills, and the know how to prevent horses from reacting dangerously out of fear. Available at alphaequestrian.com and on Amazon. Nelly lives in Grand Rapids, MI.

"Safe, Fun, Challenging - Come Ride With Us!"
The data have been analyzed from the February 2014 online survey. In answer to the question, “Do you have any other ideas on how to get new riders to come to our rides,” the top three categories of ideas were rides, ride fees, and clinics/mini-rides.

**Rides:** Folks suggested such things as more rides, more 1-day rides, the ability to arrive, ride and go home the same day, streamlining check-in, check-out and briefings, minimizing wait times on the trail, and changes to divisions and classes.

**Fees:** Discounted or free entry fees were seen as incentives for newbies to try a ride and to return. Some ideas were: ride three-get one free, second ride discount, award a nice jacket (or something) for completing “x” rides in a newbie’s first year, riding club group rates, and greater junior discounts for families.

**Clinics/Mini-rides:** A lot of folks thought clinics should be held with sanctioned rides, be near major metro areas, include overnight camping, give participants discounts for sanctioned rides, and be presented at non-distance rides and other horse events.

Following close behind were **Advertising** (more online ads and local flyers; fewer print ads), **Mentoring** (nothing beats one-on-one instruction and support), **Educating** (YouTube channel, talks, clinics and booths at clubs, expos, fairs, etc.) and **Individual Effort** (always being welcoming and helpful to newbies plus participating in advertising, mentoring and educating.)

All of the above plus much more was presented to our national board at its 2015 convention meeting. The board and each regional director has prioritized national and regional task lists for promoting NATRC. The board members were asked to take on some tasks that they’d be interested in. They and existing committee chairs need your help.

Activities that are, or may be, on the horizon are an updated brochure, downloadable handouts, more enhanced member services, Just Ask campaign, Booth-in-a-Box, clinic guide, branded apparel and gear, loyalty programs, YouTube Channel with educational videos, updated introductory DVD, speakers bureau, updated rider’s manual, youth representatives... to name a few.

Want to be part of the excitement? Contact your region’s board member or a national committee chair and ask where you can help - or better yet - tell them what you’d like to do!
Longeing (also spelled and pronounced Lungeing) is the ideal way to show your horse to the veterinary judge for the soundness check. Proper preparation and training can show your horse to best advantage and also display your horsemanship skill.

A 30 to 40-foot diameter circle will best show the horse’s gait. This requires the lead line to be a minimum of 12’, with 15’ being better. This still requires you to walk a smaller circle inside the horse’s larger one (called “parallel longeing”) rather than standing still in the center of the circle. Standing in the center can be done with a line that is 20’ or longer, but it tends to become difficult to handle the extra length of line. Have enough line to be able to keep both hands on the line at all times for security and still be able to handle any excess. Experiment with different lengths to find what works best for you and your horse.

Training your horse before the competition is essential for a smooth presentation. Learn to hold the line correctly, with both hands on the line, the leading hand connected to the horse and in the same hand as the direction of travel; the driving hand holding any excess line and the whip, if used. Using body language or raising the whip, drive your horse’s shoulder away from you to form increasingly larger circles.

When first starting to longe, move the horse’s whole body away from you. If you move only your horse’s shoulder, you will be placing yourself in kicking range of the hind feet. Walking toward the horse’s shoulder or girth area in a bold manner with hands raised will usually accomplish this. A whip may also be used as an extension of your arm to signal if necessary. Never take backward steps away from the horse, as this will cause it to turn toward you making increasingly smaller circles. This can also invite the horse to cut into the circle and dangerously crowd you.

To trot the straight line to the center of the area for the circling presentation, fold the excess line back and forth rather than coiling it into loops. Circular loops can quickly tighten around your hand if the horse should bolt. When trotting the horse to the right (clockwise), hold the leading line (to the horse’s head) in your right hand and the folds of extra line in your left (driving hand). Feed out the folds of line as you drive your horse into the desired size of circle. Reverse the hands on the line when trotting the horse in the opposite direction. The driving hand can hold a whip or can spin a short length of the end of the line. The horse should be trained at home to increase or decrease its speed by responding to a raising or lowering of the whip (or hand) or increasing spin of the line. The horse can also be taught to respond to verbal commands, such as: walk, trot, canter, easy (to slow down) and whoa (to halt.)

To reverse directions, it is best to teach the horse to stop at the end of the line, face you, and wait for you to switch hands on the line and give the signal to turn and start off in the other direction. The horse that waits for your cues is much safer than the horse that spins around on the end of the line to reverse, or, even worse, the one that cuts across the circle and charges into your space. It is a good obedience and patience lesson for the horse to learn to stop and stand on the end of the line. It should stand still and let you approach and touch it if you want to, remain standing as you step away, and not reverse and trot until you have switched hands on the line and cued it to do so. This cue can be raising the leading hand, pointing in the direction you want the horse to turn, then raising the driving hand or whip, or spinning the end of the line.

To receive an “Excellent” from the horsemanship judge, the handler gives quiet, confident cues and always handles the horse, the line and the whip in a safe manner. The horse should have perfect manners on the line, trotting the circles with its attention always on the handler, and with its head tipped to the inside of the circle rather than gazing off at other horses or activities.

Working your horse on the longe line at home is beneficial in several ways: to settle a horse that is full of energy before riding, to make a horse more obedient to voice commands and your body language, to develop balance and suppleness in a horse and to exercise one when it cannot be ridden.

This Novice team is just starting their circling presentation. Notice the excess line in the right hand, pointing in the direction to go with the left hand, and the horse’s eye on its handler with body bent in the curve of the circle and nose tipped in.
Some of our R6 members have taken educating and recruiting new members to heart in a big way! The Horse Trails Committee of the Nebraska Horse Council hosted the trail riding expo at Chance Ridge near Omaha on March 21-22.

Our own Tammy Vasa chaired this event. Several other NATRC members helped to organize it, including Mary Hanson, Sharron Ankersen, Diane Beckham and Shari Parys. Our sport of Competitive Trail Riding was definitely emphasized throughout the event. The Nebraska Endurance & Competitive Trail Ride Association (NECTRA) had a booth in the vendor area, Shari did a demonstration about CTR, and Sarah Rinne did a PowerPoint talk about stepping it up from pleasure riding to competitive distance riding. Shari’s vet also talked about conditioning for longer rides and how to check a horse’s metabolics and fitness while conditioning. The whole NATRC team was very excited about participating in this Horse Trail Riding Expo and helping to spread the word about CTR to the people who attended.

By Shari Parys

Thoroughbreds Can Make Great Trail Partners

Bred to be an athlete, the Thoroughbred is most often considered the preferred breed in fox hunting and cross country. Trail is a perfect activity that embraces, and rewards, Thoroughbred strengths.

Become Recognized Nationally with Your Thoroughbred

NATRC offers breed awards. And North American Thoroughbred Society offers its members trail recognition in two separate programs. Details can be found at www.hellohorse.com

Visit us on www.facebook.com/ NorthAmericanThoroughbredSociety

NATRC can receive one penny for each Internet search using GoodSearch as the search engine. Those pennies add up! And you can shop using GoodShop, which includes all the big retailers, with up to 30% going to NATRC. Turn your search and shopping into dollars. Please go to: www.GoodSearch.com and set North American Trail Ride Conference-NATRC (Sedalia, CO) as your preferred charity.

To be sure that your GoodShop purchases are credited to NATRC, go to the online store through GoodShop. How? On the GoodSearch page, click on GoodShop in the upper left. Type in the store name in the search bubble, click on the search icon, and finally, when the search results come up, click on the store logo.

Enhanced Member Services Program

- Discounts on merchandise
- Discounts on services
- Equine industry vendors

NORTH AMERICAN TRAIL RIDE CONFERENCE

Hoof Print / Spring 2015  39
I geared the last half of my previous article on choosing the positive. Since that time, I have been reading The Happiness Advantage by Shawn Achor and wanted to share some thoughts with you.

What is so great about this book? Positive psychology studies how people predominately see the world, (roughly either in a positive way or a negative way) and what effects it has on their success and overall happiness in life. In a way, this book debunks older thoughts such as if you work hard and do your best, you will be successful and happy in life. The author argues that based on many studies and his own observations at Harvard University, positive individuals are more happy and successful in their lives than negative individuals.

A lot of the theories behind these findings suggest that those who are more positive tend to be relaxed and are able to open up more of their “visual field” to opportunities around them, whereas those focused on the negative may be closed off to opportunities to advance. This is not unlike when we are tense in the saddle (negative, expecting bad), we tend to unintentionally find ways out of the saddle and when we are more relaxed, we tend to be able to sit through rougher times.

Another theme I find very interesting is that people see their work in three different ways. There are those who see work as jobs--a burden to go to, a place they have to go to begrudgingly; those who see work as careers, or ways to advance themselves in life; and those who see work as a calling--a way to fulfill meaning and purpose in their life through helping the greater good.

What is most interesting is that the author says that there are those in janitorial positions who consider their jobs a calling and there are doctors who see their work as a job! What does that mean exactly? Anyone can find meaning and purpose to their work, it’s all in a person’s perspective. How is what I do contributing to the bigger mission of my workplace (or in my case, my volunteer position)?

Does this mean, if you’re in general prone to see the dour side of things, you are doomed to a life of less success? Absolutely not. Mr. Achor shows us that our brains have this amazing capability to grow new areas when we practice new skills and get better at seeing things in a more positive light. This concept is called neuroplasticity--basically the ability of beings to change their brains.

One technique I am trying out on my hubby (a prime example of someone who sees the world in a negative shade of gray; Glassman Half Empty vs. Glassman Half Full ;) is to try daily to talk about three good things that happened that day. Is it working? The jury is still out, but it is kind of fun to see him try to shift his perspective around!!

At this point, you may be asking yourself what this has to do with Trail Advocacy? Here’s my answer—everything!! Why not use this information to help keep our perspectives positive? The more positives we look for and see, the more creative solutions we can come up with for “opportunities” that come along. Let’s look for the good in other trail users, the common things we all enjoy, and hold each other to a higher standard of behavior and respect. Maybe it’s here that we can march towards more trails and peaceful enjoyment of our beloved nature.

Please send me your accounts of trail work you and people in NATRC have participated in! Photos of the project would be great, but not necessary for publication! Any trail issues and or concerns—reach me at ejacob716@gmail.com.

LEG PROTECTION (Pg 5-2)

SECTION 5 – THE RIDE

E. Hoof Protection/ Leg Protection

1. There are no shoeing restrictions.

2. All types of hoof boots that provide sole protection are allowed. However, any attached strap, keeper, or gaiter must not extend above the pastern. The judges may request to observe the area covered by the attached strap, keeper, or gaiter.

3. Optional hoof boot accessories (not an integral part of the hoof boot) that extend above the coronet are not permitted.

4. Protective devices, such as bell boots, wraps, or wraps/socks under hoof boots are not permissible on the legs of horses. The leg is defined as all structures above and including the coronet.

F. Tack

1. Riders must use a saddle and headgear with attached reins. The type of saddle, headgear with reins, and other equipment is at the discretion of the rider within the bounds of good horsemanship. However, no inhumane method of restraint is to be used.

2. Trail gear desired by the competitor during the ride will be carried on the horse. No part of a rider's wearing apparel is considered trail gear.

3. Protective devices, such as bell boots or wraps, are not permissible on the legs of horses except for hoof sole protections as allowed under Section 5.E.2. The leg is defined as all structures above and including the coronet.

Rationale: Many riders and Rules Interpreters have questions about what types of boots or accessories are permissible. Moving #4, currently under Tack (F.), to Hoof Protection would help to further clarify what’s permissible.

COMPETITIVE/ PLEASURE NATIONAL CHAMPIONSHIP (Pg 9-5)

SECTION 9 – AWARDS

B. Annual Awards, 2. National Awards

j. COMPETITIVE/ PLEASURE NATIONAL CHAMPIONSHIP: In the Competitive/ Pleasure class a horse shall be declared a National Champion when all the following requirements are met within the first 12** rides officially started in the same year. Type A ride counts as 1 ride, Type B ride counts as ½ ride. The horse and rider team shall be considered officially started when timed out on the first day of the ride.

(1) Awarded two firsts or one first and two second placings from any ride type.

(2) Awarded the first or second placing from any ride type in any two states or two regions, or is awarded a national placing in HIGH POINT COMPETITIVE/ PLEASURE HORSE.

(3) Accumulated 75 points. Lower to 65 points if horse is limited to first 12 rides.

(4) Horses competing for a National Championship Competitive Pleasure award must be at least 60 months of age.

(a) Registered horses are considered 60 months of age as of actual foaling date on the registration papers.

(b) Unregistered horses are considered to be of eligible age if they have a “full mouth” (all permanent incisors having erupted and are in wear) as determined by the veterinary judge.

** or raise number of rides to 16 if the requirements are to be the same as for an Open National Championship.

NATIONAL NOVICE AWARDS (Pg 9-6)

SECTION 9 – AWARDS

B. Annual Awards, 2. National Awards

p. HIGH POINT NOVICE HORSE: Points shall be credited to horses for the purpose of determining annual high score awards in each Novice class (i.e., HWT, LWT, JR), first through sixth place. Only the first 6 rides officially started will count. Type A ride counts as 1 ride, Type B ride counts as ½ ride. The horse and rider team shall be considered officially started when timed out on the first day of the ride. These criteria will be used for the purpose of determining various championships and additional awards which may be considered in the future.

q. HIGH POINT NOVICE HORSEMANSHIP: Points shall be credited to riders for the purpose of determining annual high score awards in each Novice class (i.e., HWT, LWT, JR), first through sixth place. Only the first 6 rides officially started will count. Type A ride counts as 1 ride, Type B ride counts as ½ ride. The horse and rider team shall be considered officially started when timed out on the first day of the ride. These criteria will be used for the purpose of determining various championships and additional annual awards which may be considered in the future.

Purpose: Each of our divisions deserves to be recognized nationally.

CHANGES TO DISTANCE ONLY/NOVICE ELIGIBILITY (Pg 4-2)

(Continued on page 42)
SECTION 4 - DIVISIONS, CLASSES, AND ELIGIBILITY

A. DIVISIONS, f. Limitations

(7) No accredited NATRC horsemanship or horse judge shall compete for horse or horsemanship awards in the Novice Division.

(8) Any rider having attained 3,000 miles in competition or having won two or more National Championships, President Cup, Jim Menefee Combined Horse and Horsemanship, Bev Tibbitts Grand Champion High Average Horse, or Polly Bridges Memorial High Average Horsemanship in any class in any previous year is ineligible to compete for horse or horsemanship awards in the Novice Division.

Purpose: To reduce the appearance of impropriety by having experienced NATRC competitors competing a horse in the Novice Division regardless of their horsemanship status of DO. It was discussed that an experienced competitor does have a competitive advantage despite riding a green horse.

CHANGE IN SWEEPSTAKES POINTS (Pg 9-6)

SECTION 9 – AWARDS

C. Point Distribution

3. The Open Sweepstakes winner will receive points based on the number of starters in the Open Division, equal to the highest points awarded for the total number of horses in the Open Division in any of the three Open classes. The Novice Sweepstakes winner will receive points based on the number of starters in the Novice Division, equal to the highest points awarded for the total number of horses in the Novice Division in any of the three Novice classes.

4. The Sweepstakes winner will receive points, in addition to other points won for horse, as follows: 3 points for a Type AA ride, 2 points for a Type A ride, one point for a Type B ride.

5. Points earned in one class will not be added to points earned in another class by the same horse or rider. 9-6 Revised 01/2014

CHANGES TO RIDE OFFICIALS/SAFETY RIDER/SAFETY PERSONNEL (Pg 3-2)

SECTION 3 – MANAGEMENT OF RIDES

B. Ride Officials

6. Safety Riders Personnel: One or more safety riders personnel designated by Ride Management will follow competitors be available on the trail to assist any horse or rider in event of emergency. Safety riders personnel must be 18 years of age or over.

Purpose: To reduce liability for Ride Management and NATRC. Not all safety personnel are on horseback nor do safety riders always directly follow the riders. Stating safety riders ‘will follow competitors’ could be interpreted as legally binding. Using the term safety personnel allows Ride Management to designate safety riders, P&R crew members, safety personnel on ATVs etc.

PROPOSED RULE CLARIFICATIONS

REMOVAL OF UNNECESSARY STATEMENT (Pg 9-5, 9-6)

SECTION 9 – AWARDS

B. Annual Awards, 2. National Awards

i. HIGH POINT OPEN HORSE: Points shall be credited to horses for the purpose of determining annual high score awards in each Open Class, (i.e., HWT, LWT, JR), first through sixth place. Only the first 16 rides officially started will count. Type AA ride counts as 1½ rides, Type A ride counts as 1 ride, Type B ride counts as ½ ride. The horse and rider team shall be considered officially started when timed out on the first day of the ride. These criteria will be used for the purpose of determining various championships and additional awards which may be considered in the future.

m. HIGH POINT OPEN HORSEMANSHIP: Points shall be credited to riders for the purpose of determining annual high score awards in each Open Class, (i.e., HWT, LWT, JR), first through sixth place. Only the first 16 rides officially started will count. Type AA ride counts as 1½ rides, Type A ride counts as 1 ride, Type B ride counts as ½ ride. The horse and rider team shall be considered officially started when timed out on the first day of the ride. These criteria will be used for the purpose of determining various championships and additional annual awards which may be considered in the future.

o. HIGH POINT COMPETITIVE/ PLEASURE HORSEMANSHIP: Points shall be credited to riders for the purpose of determining annual high score awards in the Competitive/ Pleasure Division, first through sixth place. Only the first 12 rides officially started will count. Type A ride counts as 1 ride, Type B ride counts as ½ ride. The horse and rider team shall be considered officially started when timed out on the first day of the ride. These criteria will be used for the purpose of determining various championships and additional annual awards which may be considered in the future.

Rationale: Starting in 1975, the Rule Book read, for Annual High Score Awards, “Points will be credited to horses for the purpose of determining annual high score awards in each open division (at that time, HWT, LWT and JR were divisions rather than classes), as well as the various championships and additional annual awards to be considered in the future.”
In early March, Friends of Sounds Horses (FOSH) commended the University Of Mississippi (“Ole Miss”) and Batson Children’s Hospital for disassociating themselves from the big lick Tennessee Walking Horse classes that will be exhibited at the Mississippi Charity Horse Show in late March, 2015.

FOSH had provided extensive research and information to University and Hospital officials on the big lick and practice of soring. Officials also undertook independent due diligence. FOSH President, Teresa Bippen said, “This was a difficult decision for the University in light of the stated charitable purpose of the show proceeds; however, FOSH feels that University officials realized there was no win for them receiving proceeds from a big lick horse show.”

Soring, illegal for 45 years yet still a widespread practice, is the deliberate chemical or mechanical infliction of pain upon a horse’s hooves and limbs to create an unnatural, exaggerated, high stepping gait for the show ring.

FOSH is a national leader in the promotion of natural, sound gaited breeds, and actively fights against abuse and soring of Tennessee Walking Horses. For more information about FOSH, the only national organization that represents multiple gaited breeds, or to become a member, please visit www.fosh.info.

In 1985, the wording was changed to read:

HIGH POINT OPEN HORSE: Points shall be credited to horses for the purpose of determining annual high score awards in each Open Class, (i.e., HWT, LWT, JR), first through sixth place. This criteria will be used for the purpose of determining various championships and additional awards which may be considered in the future.

“This/ these criteria” originally applied to points being credited. It kept being pushed to the end of the paragraph. (1) It is not necessary for the meaning, and (2) it is not reasonable to make a statement that certain criteria will apply to “various championships and additional awards”. Each championship and award should be very specific to itself.

RATIONAL CLARIFICATION (Pg 9-1)

SECTION 9 – AWARDS

B. Annual Awards, 1 General
   e. Horses receiving annual awards must be ridden by a member during the ride year of NATRC.
   f. Riders receiving annual awards must be members during the ride year of NATRC.
   g. Ride year will end immediately after the second Sunday in November.
   h. A non-member joining NATRC at any time during the ride year in which he has competed in a ride will start to accumulate points from the first ride ridden in that year. (For exceptions see Section 9.2a(3), 2c(5), 2e(5), 2k(4)).
   i. Points are based on the table in Section 9C4.
   j. In order to qualify for annual awards the competing horse or rider must have completed at least three rides of any ride type in their designated Region (See Section 10 for Region 1A requirements).

Rationale: Many riders don’t realize they must be members by the end of the ride year. Section 1 – General, describes membership for 12 months beginning January 1. The only place “ride year” is defined is under Section 2 – Sanctioned Rides and Clinics.

POINT DISTRIBUTION (Pg 9-6)

SECTION 9 – AWARDS

C. Point Distribution
   1. Points shall be based on the number of starters in a Class. Points will be awarded as outlined in table of section C-5 (6). Each division may have All or Heavyweight, Lightweight and Junior classes.
   2. Disqualified or pulled horse and rider receive no points.
   3. DO horse and rider receive no points.
   4-3. The Open Sweepstakes winner will receive points equal to the highest points awarded for the total number of horses in the Open Division in any of the three Open classes. The Novice Sweepstakes winner will receive points equal to the highest points awarded for the total number of horses in the Novice Division in any of the three Novice classes.
   5-4. The Sweepstakes winner will receive points, in addition to other points won for horse, as follows: 3 points for a Type AA ride, 2 points for a Type A ride, one point for a Type B ride.
   6-5. Points earned in one class will not be added to points earned in another class by the same horse or rider. 9-6 Revised 01/2014

Purpose: For clarification of how points are awarded.
Please welcome the following new and rejoining members to NATRC. If I left you out or mis-spelled your name please let me know. Thank you for joining.

**Region 1**
Jordan Mc Osker, Jessica Olejnik

**Region 1A**
Amanda Kramer

**Region 2**
Kathy Stegman

**Region 3**
Dewitt Daggett, Mary Gills, Karen and Sarah Laden, Megan Avevedo, Rose Carter, Ashley Moore

**Region 4**
Claire Kirsch, Kathryn Paul, Monique Vincent, Jody, Travis and Jace Clark, Melissa Campbell, Ann Wallace

**Region 5**
Coyte Martin, George and Kathryn Schaefer, Anna Christopher, Victoria Light, Carolyn Mills, Cynthia Taber, Jackie Windham, Sarah Banks, Michael Cox, Ginny Feltner, Kathy Hardin, Rita Lowery, Patricia Paro, Patricia Rigel

**Region 6**
Dwight and Mary Hanson, Juanita Serafini, Mary Stanford

“The mission/vision/philosophy of NATRC has stood us in good stead for over 50 years now. Sticking with these guidelines has allowed us to become the best at what we do — educating and informing horsemen and horsewomen about how to care for and manage their horses over long distance trail competitions. This is what we do and No One Does it Better.”

— Kim Cowart
CALL TO ORDER by Kim Cowart, 8:00 a.m., February 19, 2015.

Patsy Conner, as Sanction Committee Chair. Guests included Drake Rinne, Laurie Knuutila and Bob Insko.

PRESIDENT'S REPORT. Cowart outlined some of the topics and issues that would be discussed in the meeting. Welcomed Kim Winterrowd as the new Management Committee Chair and Betty Wolgram as the new Membership Retention Chair. Cowart thanked Cris Ballard for her service as Publicity Committee Chair.

EXECUTIVE ADMINISTRATOR'S REPORT. DiNatale reported that renewals are in process. Secretary/Treasurer's Report. Malone reviewed reports. We are healthy financially. Income is down. Expenses are down. Jim Ward is willing to do another Ranch Raffle in 2016. Ride Manager Support Fund has awarded $5,650 to five ride managers. Four ride managers were able to return $2,235.

BY-LAWS & RULES. Sarah Rinne (Wayne Hyatt). See Rules Report in Hoof Print and on Website.

Cowart suggested that Rulebook may need to be broken into 2 separate documents. One would include rules that apply to the management of rides. The other would include rules that apply to competition. Horne suggested a “Rider’s Handbook” that would include the rules that riders need to be familiar with. It could be an outline of what they need to know, with references to the rules in Rule Book. Rand would like to see different organization of the Rulebook. She would also like to see money devoted to creating a Basic Rider’s Handbook.

POLICIES AND PROCEDURES. Dieterich. Added - needs approval:

20. MEMBER SERVICES PROGRAM
The Member Services Program is an annually renewable program in which participating businesses or organizations provide discounts to NATRC members and friends who contact those businesses or organizations through NATRC’s website Member Services page. (Both businesses and organizations will be referred to as ‘businesses’ in the remaining material in this section.)

A. Presence on NATRC Website
1. The businesses’ logos, brief information about the businesses, their discounts, and discount codes, will be placed on the NATRC’s Member Services page with a link to their websites. Each business will supply:
   a. a high resolution digital copy of its logo
   b. the URL address for the link to its website
   c. the code, if any, to be used in purchasing a product or service
   d. desired wording
2. The businesses will only be on the Member Services page on NATRC website (the NATRC Home page will have a Member Services button)

B. Advertising
1. NATRC will publish a quarterly reminder in Hoof Print for members to visit the website Member Services page
2. Any business wishing to advertise in Hoof Print will be charged the rates as given in the current Ad Specifications sheet.

C. Eligibility

(Continued on page 46)
1. Any reputable business may provide member services.
2. Sponsors may also provide member services.

22. NATIONAL BOARD OF DIRECTORS (NBOD)

A. Meetings – Schedule
The date of the National Convention and February NBOD meeting can vary at the request of the host region. Subsequent NBOD meetings will be held the second full weekend in July and the second full weekend in November. (Re-worded from BOD Guidelines, 11/87)

Consensus to adopt proposed updates to Policies and Procedures.

PROTEST. Meroshnekoff. No current Protests.

RIDE SANCTION. Patsy Conner reviewed her report.

CLINIC SANCTION. Linda Clayton. Report filed. For 2015 we presently have sanctioned three clinics in Region 5 and one clinic in Region 6.

Motion by Malone, seconded by Parys, to approve $200 per Region ($100 each for the first two clinics sanctioned in Region) for insurance reimbursement. Motion approved.

MANAGEMENT. Kim Winterrowd. The Management Committee would like to report that the 2015 revised edition of the Management Manual is online for download now (Management Manual), and the print version is in the works and should be ready to mail out soon. One of our goals was to get all management instructions in one place rather than having separate documents on the web site that get updated without changes made in the Management Manual. The electronic version contains hyperlinks in the Table of Contents to every section and to every volunteer position instruction/description. This makes it easy to find what ride management is looking for. Printed editions will be mailed to ride managers and secretaries. Managers can download the .pdf file for easy use on electronic devices for quick reference. Cowart stated that we need to empower the ride managers to act as CEO’s of their rides.

RULES INTERPRETER. DeMattei. Looking at who is the RI from each region, it seems that there are a few that are the favorites and used a lot. Of the 54 reports that were turned in, 30 reported being held up on the trails as a problem to some degree. There were 19 reports that said the trail timing was adjusted after the start of the ride. One ride in December reported an accident.

INSURANCE. DiNatale. No changes to insurance. New application for 2015 is interactive, but must still be downloaded to send an original signature to Equisure.

SAFETY. Gould. Reported an accident at Christmas in the Pines Ride. An accident at
STAR ride was not reported. Andrew Murray has assembled a list of items that he feels should be included in a safety pack.

MARKETING/ PUBLICITY. Tabled until Roberts arrives.

NATIONAL AWARDS PRESENTATION. Hosting Region will handle awards presentation at the banquet.

SOCIAL MEDIA. Rinne. Our national Facebook group had another spike in members. We currently have 1,935 "likes" for the national page. It is up by 63 since the last report in July. Our national group has a slightly higher rate of growth with 1,271 members which has increased by 83 members since November. There have been some good discussions on the group in the past couple of months which has increased participation and drawn more members. Promotion of rides and NATRC events has become the norm rather than the exception. With the large number of NATRC members active on Facebook, it has become one of the best avenues for free advertising and event promotion.

BUSINESS MODELS AND MEASUREMENTS. Swiss. Report filed. In report Swiss reported good news, specifically in Regions 1, 2, 3 and 6. All four of these regions had some increases over the year in average competitors per ride or in members or both. Overall, the performance in total is so-so, but Swiss urged BOD to focus on how the good news came about and repeat those actions to have a better year in 2015.

SPONSORSHIPS. Swiss will continue to work on sponsorships.

RAFFLE. No report. Consensus not to hold a raffle in 2015 but to ask Jim Ward if he will head up a Ranch Raffle for 2016.

MEDIA ADVISORY. Dieterich. Reported on the following projects.
  - Publicity Brochure. Committee is working on this project. Bev Roberts will proof.
  - Regional Websites. Please help monitor your respective region’s site for accuracy in contact info, dates, working links, and sponsors.
  - RIDERS AND JUNIORS. Meroshnekoff. The number of Juniors competing at rides in 2014 was up a bit over 2013 but not many of those did more than one ride. Region 1-15 junior riders/ 7 of those did 2 or more rides. Region 2-7 junior riders/ 3 did 2 or more rides. Region 3-11 junior riders/ 9 did two or more rides. Region 4-13 junior riders/ 4 did two or more rides. Region 5-20 junior riders/ 3 did two or more rides. Region 6-5 junior riders/ 2 did two or more rides. Meroshnekoff reported that R1 junior members will be voting at the R1 annual meeting to elect a Junior Representative to attend the Regional board meetings. Not as a voting board member, but to be a voice and to be involved in the discussion. The juniors are very excited about this opportunity and Meroshnekoff encouraged other regions to try this.

FOUNDATION. Meeting set for Saturday 8:45 a.m.

DRUG TESTING. Jerry Weil, DVM. No report. Discussion on penalties for drug violations. Some felt that penalties should be tougher. Gould felt that penalties need to be tailored to each offense. Gould will assemble a list of possible penalties for drug offenses. Greg Fellers, DVM is our representative to CA Drug Testing Program. CA decides which events are tested. Generally more shows than trail rides are chosen for testing.

VETERINARY DRUG COMMITTEE. Michael Peralez, DVM. No report.

TRAIL ADVOCACY. Erin Glassman. No Trail Grant Applications at this time. Glassman has started the preliminary work of discussing partnerships and educational material with Back Country Horsemen of America. Glassman wants to work with BCHA on trail building and advocacy. Glassman believes that engaging our membership in trail maintenance and building will help us in the future to be able to compete on our trails.

EDUCATION. Dieterich. Such things as standing in the stirrups and being out of the saddle going uphill, aligning with the trees going uphill, leaning back in the saddle going downhill, gripping with the knees going up and down hills, asking for a flat-ground mount, asking horses to jump an obstacle or back over a log, asking the rider to drop the reins to do an obstacle, having to carry your horse’s lunch on your horse, using a whip at check-in and check-out, and longeering or trotting the horse in hand are examples of inconsistencies or misconceptions in our horsemanship judging. Many veterinary judges ask for a display of skills in multi-part obstacles that are not representative of the trail of the ride, and they forego metabolic and soundness checks to do so. We offer education through evaluation (judging), so our judging has to follow standards to achieve better consistency and credibility. At the November 2014 meeting, the NBOD approved some minimum standards for veterinary judging, and those have been distributed to our veterinary judges. Several references/ resources for all judges have been posted on the NATRC website. Presenting information alone does not make an educational experience. That information must be absorbed and learned. Motivation stimulates learning, and relevancy stimulates motivation; i.e. we need to know something matters before we’re motivated to learn that something. How we manage a competitive distance horse matters a lot to the horse, so it should matter a lot to us. NATRC is a competitive distance sport. We are a 501 (c)(3) organization based on education.

MARKETING/ PUBLICITY/WEBSITE. Bev Roberts. Roberts explained Trademarking process. Roberts presented a Promotional Plan for NATRC. Motion by Rand, seconded by Horne, to have our Webmaster (Continued on page 48)
MEMBERSHIP RECRUITMENT. Roberts presented a prioritized task list for which we need volunteers (members and board members alike) to accomplish the tasks. Cowart suggested that we need promotional materials that can be sent to those doing booths.

ENEWS. Jean Green filed report. At the end of 2014 we had 1563 active contacts, an increase of 1591. It seems that some ride chairs are not taking full advantage of the E-News to promote their rides. Some only use the Open for Entry E-News, while others request several reminders with new information encouraging riders to enter.

MEMBERSHIP RETENTION. Betty Wolgram. New to position. Will be working on projects to retain our present members. Wolgram is open to suggestions.

JUDGES. Mike Bridges, DVM/Priscilla Lindsey. Lindsey reported on Apprentice and Provisional Judge status. Liz Yorke, DVM, has been moved to Provisional. Dieterich noted that the new Judges Committee needs to be ratified by the BOD. The nominees as submitted by President Cowart were: Veterinarians: Mike Bridges, DVM—co-chair, Greg Fellers, DVM, Donna Johnson, DVM, and Kate Jacob, DVM. Horsemanship: Priscilla Lindsey—co-chair, Nancy Kasovich, Lory Walls, and Becky Rogers. Riders: Angie Meroshneff, Louise Vasquez, Jonni Jewell, and Marty Findley. Committee was confirmed by BOD.

Dieterich distributed Vet Judging Standards and CRI Report. Discussion on CRI and its use in NATRC.

HALL OF FAME. Jackie Coleman. No Report. Swiss Mocha will be inducted into the Hall of Fame.

STUDENT LOAN/SCHOLARSHIPS. DeMattei. We have received two applications for the Bev Tibbitts Memorial Scholarship. The first one is from Taylor McNeel, Region 4’s scholarship recipient 2013 and the Bev Tibbitts Scholarship in 2014. She is studying Agricultural Business at Southern Arkansas University and hopes to become an agriculture policy advocate. The second is from Jason E. Klam, a Region 6 member. He is a high school senior and is interested in attending Kansas State University in the fall. He wants to study Animal Science and Nutrition. The Student Loan Fund has funds available for distribution. DeMattei recommended a scholarship of $1000.00 to each applicant. It was noted that Policies and Procedures need to be updated to reflect that, up to budgeted amount. $1000.00 was awarded each to Taylor McNeel and Jason Klam.

BREED & ORGANIZATION LIAISONS.

- A.H.A. Bob Insko. The biggest item that changed at AHA that affects NATRC is the elimination of the AHA Breeders Sweepstakes "Points" program. One thing that hasn’t changed is that NATRC Rides dual-sanctioned as AHA Local Rides still allow those AHA riders participating in the Achievement Awards program to get credit for their points “automatically” as the results are submitted to AHA by ride management. The dual-sanctioned ride is held under NATRC rules, using NATRC scorecards, and NATRC placings. There is also the benefit that the results submitted to AHA by ride management are the “official” results for AHA and the NATRC results can be submitted directly to AHA to satisfy the AHA reporting requirements. So, the two remaining reasons to dual-sanction a NATRC ride as an AHA Local Ride would be in an attempt to get more riders, and to save AHA riders enrolled in the Achievement Awards program the $5 filing fee for the AHA Open Event form for this ride.

- BREED LIAISON. Terry Silver will be chairing this committee. Silver presently works with breed associations on breed awards.

HONORARY & APPRECIATION. Ruth Mesimer. Certificates have been printed by Mesimer and will be awarded at National and Regional Awards banquets.

ANNUAL POINTS/NATRC DATA/NATIONAL RECOGNITION. Cheri Jeffcoat/ Laurie DiNatale. Jeffcoat is working with Andrea Rogers of R5 as a replacement for some of her duties in the future. DiNatale reported that Lory Walls and Beni DeMattei have been a tremendous help with award calculation, confirmation, and ordering. Dieterich has completed the Script for award ceremony.

ELECTRONIC MEETING COORDINATOR. Sallie Kudra. Please contact Kudra to set up conference calls.

CONVENTION 2015. Region 6. Rinne reported that all preparations have been completed.

“Through your hands you should be many things to your horse: a friend to be respected and trusted, a quiet, steady influence whom will reward good behavior with a word and a touch and bad behavior with a calculated correction using the rope or rein. I do not include the term partner in this because a partner has an equal say.”

—Nancy Kasovich, NATRC Horsemanship Judge
CONVENTION 2016. Region 1. Diet-erich reported that R1 will be work-ing with AERC to hold the convention in Reno, NV.

Regional Reports will be posted on the new BOD/Committee Chair Face-book page.

Shared BOD amount is $337.99.

Old Business:
1. Electronic Scorecards. No action.
2. Riders Manual. Dieterich is work-ing on revision.

New Business:
1. Strategic planning. Discussion will continue. Roberts covered parts of the plan in her presenta-tion.

Motion by Sims, seconded by Gould, to adjourn. Motion ap-proved.

Addendum:
Saturday, February 21, 2015. BOD reconvened to elect Foundation members. Motion by Merosh-nekoff, seconded by Yovich, to elect Meroshnekovf, Malone, Sims, Gould, Cowart, and Rinne as Foundation BOD members. Wayne Hyatt, Patsy Conner, and Laurie DiNatale will continue as Outside Directors. Motion ap-proved. Upon examination of the Foundation Bylaws, it was discov-ered that the Foundation Annual Meeting does need to be held at the NATRC Convention, so the meeting could not be postponed to July as previously discussed. Consensus to continue the past practice of electing the Senior NATRC BOD member as the Foundation BOD member unless that NATRC BOD member declines. Motion by Meroshnekovf, secon-ded by Rinne, to adjourn the meet-ing. Motion approved.

Full Minutes on file at National Of-fice.

Next meeting to be held July 11, 2015. Informal meeting in the evening on July 10, 2015. Double-Tree by Hilton Hotel Denver, 3203 Quebec Street, Denver, CO 80207.

**Taking The Bull by the Horns…**

Ride manager Liz Klamm, R6, has taken the advertising bull by the horns for her Exploring Sand Hills ride.

With the help of the national Marketing & Publicity team, she put together a press release for her ride and sent it to all the local and regional publications and the Kansas State Parks site. Her release appeared in the KS State Parks, Ammoland, High Plains Journal, Rural Messenger, Stayin' in the Loop, and maybe more. She and Erin Glassman also appeared on a local TV show.

At publication time, Liz had 65 entries and half of them were novices!

---

**Note to Judges…**

Judges: Note the reasons for pulls on the scorecards. Write the reason for the pull in big, bold lettering across the face of the card. Make it clear with a line across the card, as well.

1. Rider Option (RO)
2. Lameness (L)
3. Metabolic (M)
4. Surface Factors (SF) cuts, injury, sore backs, etc.
5. Disqualified (DQ)
6. We look at the data to determine why horses are pulled. In the interest of accuracy, be sure to be true to the codes. For instance, if the horse is judged to be Grade 1 or 2 lame, the rider may wish to opt out of the ride. Simply write down the pull as ‘Lameness’. Rider Option should be reserved for those situations involving only the rider, e.g. illness, injury, or for those wishing not to continue.
As E-News Chair, I’ve noticed that some people get a lot more out of our Constant Contact E-News than others by simply using it. Once ride chairs have their ride information updated, most ride chairs will click the RMS email button when they open the ride. Some don’t do that.

NATRC pays for the Constant Contact E-News so that we can use it to promote our sport. It is available for your use to:

- Send updates, pictures, links, and reminders for your ride
- Send links to the ride info page on the RMS or regional web site
- Send out committee findings or reports
- Announce regional meetings or clinics
- Announce that regional newsletters are online

Here is how it works. We have multiple mailing lists set up so that you can target just the people who are interested in what you have to say. I can send an E-News to all of the membership, or just specific regions, or just to those people who have subscribed to receive certain mailings listed below.

When you join NATRC or renew your membership, you are automatically added to the National News list. This means you will get everything. So at the beginning of each year, or if you update your membership information, you may need to change your profile.

If you don’t want all of the emails, go to the bottom of any E-News you receive and click Update Profile/Email Address. You will receive an email with a link to the Constant Contact web site where you can select one or all of the following lists. For instance, you can choose to receive only the E-News for your region.

You do not have to completely unsubscribe if you want to limit the number of E-News you get. Ride information is sent just to the ride region and its neighbors. Most emails go to the National News list, including advertisements for our sponsors and Hoof Print availability. Others are limited just to the list selected. I usually send everything to the small Regional or National Newsletter Editor and Webmaster lists. So, if you are on one of those lists by error and want to get fewer emails, remove yourself from those lists. The Hoof Print Subscriber list is for those who only want to know when the new Hoof Print is posted.

Reminder
If an NATRC horse (that has competed) has been bought or sold, the mileage will not go with that horse unless the buyer or seller notifies the National Office that the horse has changed hands. We need the current and past owners’ names, breed and registration number (if applicable) in order to move the mileage to the new owner.

If you change your name, please notify the National Office so we can put your mileage with your current name.

If you see that your name or your horse’s name is incorrect in the Hoof Print, please notify the National Office and ask for a correction. The RMS is a privately owned and maintained system. If you corrected a name on the RMS System, it will NOT be corrected on the National database until you notify us of the change.

How to read these results:
1st # = Horse’s Placing / 2nd # = Rider’s Placing
CO = Completion Only / P = Pulled / DO = Distance Only / DQ = Disqualified
How to read these results:

3/15/15

Join Us on Facebook!
The Upper
Leather and soft-weave fabrics is lightweight yet durable to protect the hoof from rocks, roots and other trail hazards. Breathable mesh wicks moisture, allows full range of motion and shields the distal joint area. Reflective details increase visibility in low light. A seamless mold between the upper and the bumper eliminates the need for stitching.

The Bumper
The robust, lightweight polyurethane bumper offers extreme flexibility and high resilience. Located at the core of the boot, this flexible connection to the upper accommodates many hoof shapes and angles.

The Outsole & Cavity Cushions
Fabric and synthetic materials resist wear and increase stability beneath the midsole. Depressions within the outsole structure are filled with the softer midsole material to create an integrated cushion. This results in a close-to-the-ground fit that encourages proper movement.

The Midsole
The flexible bumper and hardy outsole are molded together to form a supportive midsole for the hoof to stand on. This combination of shock absorption and support has never before been seen in a hoof boot.

Hook & Loop Straps
Industrial strength hook and loop straps at front and back secure the boot on the hoof. These reversible strips allow for precise fit adjustments.

Trail-Proven Tread
Center through the trees and cross mountain streams with confidence using the most accomplished hoof boot tread on Earth. This trail-proven tread pattern excels in multiple disciplines and has won some of the most extreme long-distance horse events in the world.
Carri-Lite Corrals

Official Portable Corral of the NATRC and endorsed by current world leading barrel racer and 4x NFR qualifier Fallon Taylor!

This 8 panel portable stall makes an approximate 12 ft “stand alone” round pen or larger area of confinement if attached to a trailer with included trailer brackets. Carri-Lite Corrals have four rails for maximum containment, security and visibility. Horses cannot get their heads through the rails thus preventing accidents. These panels provide innovation and convenience in transporting and storage where storage is a premium. The panels’ unique telescopic design allows each panel to collapse down to 1/4th its size. This portable corral can fit in the trailer mid-tack area, trailer hay racks, trailer mangers, truck racks, truck beds, and even a back seat!

Made of high impact engineering grade HDPE resin. This resin is resilient and provides flexibility so panels will not dent, crack or chip (They are not pvc). Metal panels can dent and will not store compactly once dented. The panels connect with simple rods and any panel can become a gate; just unpin and swing open. With ultrasonic welded couplers and hydraulic pressed fittings, the panels are durable and will provide years of maintenance free service.

Carri-Lite Corrals come complete with a 30-day customer satisfaction and a 1-year manufacturer warranty. Panels ship regular UPS ground for delivery right to your door. (No over size charges.)

MADE IN THE USA

Panel Size Expanded: 5’ 3” length x 51” height
Panel Collapsed Size: 28” x 39” x 2’’ * Panel Weight: approximately 15 lbs
